## ABOUT

We are raising money to help Henry Searle his family search for advice, possible surgery, clinical trials and alternative medicines.

Henry was given the devastating news just before Christmas 2014 that he has a Brain Tumour. He was advised that it is inoperable will be given radiotherapy and chemotherapy to prolong his life

The money raised enough will also help finance Henrys family with the cost of medical treatment abroad which has been shown to have a far higher success rate in treating Glioblastoma Multiforme.
